## PROPERTY MANAGEMENT CORNER

- We are excited to begin Phase 2 of the Rehabilitation! Please remember to stay clear of the construction sites for your safety and help us by not placing trash in the construction dumpsters.
- Please help prevent sewage backups by not flushing the following items down the toilets:
  - Baby / Facial / Cleansing wipes (even "flushable" ones can cause backups)
  - Diapers
  - Feminine hygiene products
  - Paper towels or Napkins
  - Cotton Swabs / Balls
  - Plastic or latex items
  - Cigarette butts
  - Kitty litter
- You can also help prevent sewage backups by using toilet paper in moderate amounts. It can become an issue if you try to flush too much tissue. If you feel like this is becoming an issue, we recommend getting a trash can with a lid for the bathroom.
- Please remember any children under the age of 10 must be supervised by a responsible adult at all times.
